## About me

I am a Full-Stack Developer with extensive experience in **MERN** technologies and remarkable communication and presentation skills.

I taught myself at the age of **14** and have achieved a high level of efficiency in creating reusable components and delivering high-quality projects. I focus on achieving the success of each project and am always looking to improve my skills and knowledge.

## Experience

### Front-end Developer

Nov 2021 - Present

Umooob

- Responsible for the development of 2 web applications using **React, TypeScript, Redux** and other Front-end technologies
- Design and creation of user interfaces using **HTML, CSS and SASS**. Collaborating with **UI/UX** designers using Figma for a cohesive and efficient design
- Communication with a team of **22 people**, including Back-end developers and designers, to ensure efficient communication and problem-solving in joint projects

### Full-Stack Developer Advisor

Jul 2021 - Sep 2021

Bootcamp soyHenry

- Lead a group of 30 students with the goal of reinforcing specific topics of the bootcamp, such as **JavaScript, React, Redux, Node.js, Express.js**, every day for a period of **3 months**
- Developed my leadership, mentoring, and coaching skills. Additionally, received recognition for my track record as a Teaching Assistant at SoyHenry.

### Full-Stack Developer

Aug 2021 - Sep 2021

Fit-Focus

- I was a member of a development team that successfully created an SPA in just 4 weeks. In this project, I led the implementation of innovative solutions that allowed us to meet the team's objectives on time. At the end, we presented a functional MVP that exceeded the evaluators' expectations.
- In this [video](https://youtu.be/dEFzBuYP_is), which I present, I talk about the technologies used, team members, and project link [https://youtu.be/dEFzBuYP\\_is](https://youtu.be/dEFzBuYP_is)

## Education

### Full-Stack Web Developer

Henry

- Intensive bootcamp with over 800 hours of theoretical and practical studies in technologies such as **HTML5, CSS3, JavaScript, React.js, Redux, Node.js, SQL**.
- 2 Full-Stack Projects and 1 Group Project with **SCRUM** methodology.
- Led a talk with over 200 people to introduce the bootcamp.

**NEVER STOP LEARNING**
